SUMMARY

I'm eagerly poised to transform concepts into captivating digital experiences. Graduated with a solid grasp of front-end technologies, including HTML5,CSS, and JavaScript combined with a keen eye for design aesthetics and user-centric interfaces.

SKILLS

Languages: HTML,CSS,JavaScript,Php,Bootstrap,React.js, MySql,Git/GitHub

Softwares: Vscode,Apache Server
Soft-Skills: problem-solving, teamwork, communication, adaptability

PROJECTS

Html,Css	**Project-1 Landing Page**	**github.com link**

Developed a responsive, visually captivating landing page for Octanet using HTML5, CSS, and JavaScript, focusing on user engagement and conversion optimization.

Html,Css,JavaScript	**Project-2 To-Do-List**	**github.com link**

Developed a dynamic ToDoList application using HTML, CSS, and JavaScript, ensuring seamless functionality and intuitive user interface for efficient task management.

Html,Bootstrap,Css, Php	**Project-3 Signin Php**	**github.com link**

Demonstrated adeptness in web development by delivering a user-centric Netflix Originals showcase, emphasizing design aesthetics and cross-device compatibility.

Html,Css, JavaScript	**Project-4 Netflix Originals**	**github.com link**

Developed a secure login form using PHP, HTML, CSS, and MySQL, implementing encryption techniques and validation to ensure data integrity and user authentication.

EDUCATION

2018	**Govt.Syed Murthuza Hr.sec School**	**School**

10th STD completed with 82%

2020	**Bishop Heber Hr. sec School**	**School**

12th STD completed with 83.5%

2021	**Mookambigai college of Engineering/Anna University**	**College**

In pursuit of a Computer Science degree with an anticipated First Class upon completion.

2022/2023	**Completed Certificates**	**Certificates**

HTML,CSS,Javascript,Bootstrap,Angular,Php

Additional Skills

Basic python, Oops,C,Framework(React.js),Time Management,Communication,SEO.

EXPERIENCE

2022	**Workshop VR/X-OR**	**Anna University**

Participating in the VR/X-OR workshop at Anna University was truly illuminating. Delving into theoretical concepts and practical demonstrations, I uncovered the vast potential of Virtual Reality and Operations Research. Engaging with industry experts expanded my knowledge of these innovative technologies, and collaborative projects ignited a passion for creative application of these newfound skills.

2022	**My College Experience**	**My College**

Crafting a symposium form encompassing HTML, CSS, JavaScript, Bootstrap, PHP, and SQL in my College was a transformative experience. This project amplified my web development skills, from structuring and designing with HTML/CSS to backend functionality using PHP/SQL, fostering problem-solving abilities and teamwork. It fueled my passion for impactful digital solutions,

2023	**Youtube Experience**	**YouTube Channel**

This experience has been a fulfilling journey, bridging the gap between learning and teaching, where my audience's feedback continually shapes and enriches my content. Through consistent sharing, I've witnessed the profound impact of shared knowledge, empowering both my audience and myself on our respective learning paths.
